

## DESCRIPTION OF SERVICES

~ WEDDING COVERAGE ~

### Base Package

All-Day Coverage	If there's something interesting going on, rest assured I'll be there to capture your memories. From the dressing rooms to the get-away car, you're covered - no questions asked.	\$1000
Custom Digital Album	Each and every one of your final pictures will be individually processed and delivered in a special digital album made just for you. Every photo you receive has been given that expert artistic touch to make sure you're looking your best. This includes lighting/tone adjustments, basic re-touching, black & white conversions, multi-image composites and more.	
Full-resolution images with printing rights	Don't want to order your prints through me? No problem. Although I offer high-quality prints at reasonable prices, I understand your desire for flexibility. That's why I provide your final pictures as full-resolution files and include non-commercial printing rights so you can order as many prints as you like for yourself as well as family and friends.	

### Extras

Additional Photographer	Want to make sure that every last moment makes it into your final album? A second photographer can make a big difference in both the variety and total number of images you receive. An additional photographer will also offer a different artistic perspective on the day, and may catch something that could be missed in the busyness and excitement. This is a very popular upgrade.	\$400
All-Pix DVD	If you want to see every picture that came out of the camera on your special day an All-Pix DVD is just for you. All-Pix DVD's contain every image taken throughout the entire wedding day in unedited form straight from the camera. *	\$100
Engagement Shoot	Personalized engagement shoots are a lot of fun and open up tons of creative possibilities for invitations, slideshows, or table decorations. Once the pictures are processed, you will receive a DVD which includes finished, full-resolution images for you to keep.	\$100

\* The Photographer reserves the right to remove images from the All-Pix collection if, for any reason, such pictures are inappropriate for viewing. All-Pix DVD's are provided for archival use only and are not to be used for printing or distribution.
